DETAILED ACTION

1. Claims 1-23 are pending in the instant application. Claims 24-33 are cancelled.

2. ***Priority***

This application was filed on 04/02/2004, which claims benefit of 60/460,744, filed on 04/02/2003 and 60/476,378, filed on 06/06/2003.

3. The rejection of claims 1-23 under 35 U.S.C. 112, first paragraph for "acid labile hydroxyl protecting group" and "oxidatively labile hydroxyl protecting groups" is maintained for reason of record. Applicants argue that the protecting of hydroxyl groups with reagents capable of being removed under acid and/or oxidative conditions is well known to a reasonably skilled artisan in a general treatise cited and specifically incorporated in the present application. It is examiner's position that the specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make the invention commensurate in scope with these claims. Chemist can not make the structure which does not define the protecting groups.

THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final

Art Unit: 1625

action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
